

## *Cultural Immersion*

Our goal with Feed the World expeditions is to engage your teenagers (14-18 years old) in a unique experience that fosters their humanitarian spirit. By giving back to many local communities, your children can immerse themselves in foreign cultures and learn to see life from a different point of view. Our youth expeditions include experienced chaperones who teach:

- **Responsibility**
- **Leadership**
- **Appreciation**
- **Values**

## *Making a difference*

Our youth expeditions provide safe, and powerful experiences that teach lessons which cannot be learned from a textbook. As your children learn how we teach rural fathers and mothers in third world countries to provide for their families, they will be offered the opportunity to experience the gift of service and widen their perspective on the world.

## *Sight Seeing Excursions!*

Experience the awe and majesty of the “lost city of the Incas”, by visiting Machu Picchu. Learn the history, legends and rituals surrounding the Incan beliefs and their deep reverence for the mother earth. This once-in-a-lifetime opportunity is included to enhance the cultural understanding of expedition participants. Sign up today!
